Payconiq Senior QA Engineer Tech Assignment

Assignment
Tech Stack: Java (or Kotlin), Junit, Maven
In this assignment, you are responsible for writing automated API tests for Hotel Booking Endpoints.

Assignment Workflow

API Documentation:
http://restful-booker.herokuapp.com/apidoc/index.html#api-Booking-GetBookings

Project Requirements:
- You have a working "createBooking" and "getBookingById" endpoints, make sure that "partialUpdateBooking , "deleteBooking" and "getBookingIds"(test get all bookingIds without filter, and add test for 1-2 parameters) are working. (Write automated tests that can be used for regression)

Submission
- Push you changes to gitHub and send us the link to your repository.
- Please follow the project requirements.
- You have 7 days to submit your project.

Good Luck!
